⟨/⟩ Projects

Personal Portfolio Website
Designed and developed a portfolio website showcasing my frontend development skills, including HTML, CSS, and JavaScript.

The Basketball Statistics App
Web application that displays player statistics, team information, and game data for a basketball team. Build using React, REST APIs, Axios.

User Manager App
Created a user manager application using ReactJS for frontend and PHP for backend, allowing users to add, update, and delete records from a database, with a user-friendly interface.

Website Redesign
Collaborated with a team to redesign an website, focusing on improving user experience and visual design using Bootstrap and Sass.
